

## CURFEW

Ordinance Is To Be Enforced  
In Mt. Vernon

And Bell To Be Sounded At  
9 Each Night

City Council Takes Action  
Monday Evening

Formal Resignation Of Mr.  
Dowis Accepted

Two Alleys To Be Paved In  
The Near Future

The regular meeting of the city council was held on Monday evening with all present except Messrs. Clark and Dowis. The meeting was called to order with President Edward Devereux in the chair and the minutes of the last regular meeting were read by Clark McIntire. The minutes were approved as read.

A bill for \$200 was presented by Clerk of Courts Charles Bennett. On motion by Mr. Taylor, the bill was ordered paid.

Mr. McIntire reported for the street committee and said that the number of re-numbering the business houses and residences of the city has not yet been dealt with, but stated that the committee will take the matter up in a very short time.

A communication from Mr. A. A. Dowis, who is now at Los Angeles, California, was read by Clark McIntire. In the communication Mr. Dowis offered his formal resignation as chairman of the First Ward because of the fact that he will be absent from the city for several months and, on his return, will make his home in another ward. Mr. Worcester moved that Mr. Dowis' resignation be accepted. The motion prevailed.

Next Mr. Taylor brought up the matter of the curfew bell. The fact that the curfew ordinance is in existence was made plain after a short examination of its records. Mr. Taylor moved that the police department be ordered to attend to the ringing of the curfew bell at 9 o'clock each evening and to enforce the ordinance. The motion carried.

## MATINEE CLUB

Lease The Race Track At  
Lake Hiawatha Park

A meeting of the Mt. Vernon Matinee Club was held Monday evening in the office of Judge P. H. Blair when the club decided to lease the race track at Lake Hiawatha park for the season of 1911, on which we had multiple races. In fact the club will have the exclusive lease on the track up until the time of the State meets and permission to use the track by outside parties can be secured from the Matinee club only.

The club decided to hold races during the coming summer and the indications are there will be some fast horses on the track.

## OBITUARY

Mrs. Elizabeth T. Rose  
Wife has been removed in this city of the south of Mrs. Elizabeth T. Rose at her home in Columbus, Ohio, on Monday afternoon. She was formerly a resident of Mt. Vernon and was very well known here. Her remains will arrive in the city Wednesday afternoon on the 2:30 train on the C. & C. and will be taken directly to Miami Valley cemetery for burial.

Mr. and Mrs. Clarence Vanfstrand have returned to their home in Mt. Vernon after a short visit with Mr. and Mrs. W. J. Vanfstrand of New Haven.

## NO MORE

Colored Teas May Be Sold  
In Ohio

After July 1, According To A  
New Law

Must Be Sold On Quality In  
stead Of Looks

State Dairy and Food Commissioner S. E. Strode has issued a circular to grocers and dealers in tea informing them that the national board of tea experts has ordered that no artificially colored tea can be admitted to the United States after May 1.

This action is a radical departure from the long established custom and universal practice of selling artificially colored tea. So long as the importation of colored tea was permitted by the national government, it was impossible for the states to maintain an uncolored standard, although their food laws may have been broad enough to cover this kind of adulteration, as is the case in Ohio.

The practice of coloring tea by artificial methods is naturally thought to be resorted to for the purpose of concealing damage or inferiority and making it appear better than it really is. If this is construed to be the purpose of coloring tea, then it brings them clearly within the operation of the Ohio law, Section 577.

The dairy and food department will co-operate with the national board in preventing the sale of colored tea, but that dealers may have time to dispose of stocks on hand, the ban will not go on in Ohio until July 1, 1911, and the dealers were asked to govern themselves accordingly.

The decision means that as soon as the green tea now in the country is disposed of, Japanese and Chinese green tea will be olive green in color instead of the present grayish color, the difference between the two shades of color being very marked. Ceylon green tea, which is also artificially colored, will also be changed in appearance. It will be olive green in color and resemble unclored Japan tea.

The grayish color in Japanese and Chinese green tea has been obtained by sprinkling small quantities of soapstone and infinitesimal quantities of a powder made of Prussian blue, these ingredients being thrown into the tea during the firing process, the use of these articles, however, not applying to hoisted fired tea, which is given a dark color, by the use of plumbeago, the material from which lead pencils are made, the plumbeago darkening the color of the leaves and improving the color of the leaf itself.

The purpose of artificially coloring green tea has been to give the leaves an attractive appearance, it being a fact that even in China and Japan tea have largely been sold on their looks rather than their cup quality.

The change means that even at first hand no one attention will be paid to cup quality, that the tea without coloring will be absolutely pure and possesses better drinking qualities. The change naturally creates an unusual demand for the colored tea at present on the market.

## PAINFUL INJURY

Sustained By Charles Cochran On  
Monday Afternoon

Charles Cochran, residing on North Market street, met with an unfortunate accident while at work at his shop near his home Monday afternoon. He was operating a lathe when he accidentally caught the thumb of his left hand in a portion of the machinery.

The thumb was almost severed from the hand as well as being severely crushed and bruised. Dr. C. E. Conard was called to render surgical attention.

Chamberlain's Stomach and Liver Tablets are safe, sure and reliable, and have been praised by thousands of women who have been restored to health through their gentle aid and corrective properties. Sold by all dealers.

Mr. and Mrs. Sylvester Durbin of Columbus are spending several days with Mr. Durbin's father, Mr. John Durbin of Buckley City.

Mrs. Frank L. Fairchild, who has been ill at her home on East Gambier street for several months, was taken to Columbus this morning where she will receive treatment at a hospital.

## CANNOT AVOID EXTRA SESSION

Legislature Must Reassemble  
to Redistrict State.

## MAY NOT BE HELD THIS YEAR

Date Depends Entirely Upon Action

Taken by Congress on Reapportionment Bill—New York Senatorial Deadlock Also Factor in Situation.

House Adjourns Out of Respect to

Memory of Representative Hagerty.

Many Members Attend Funeral.

Columbus, O., March 21.—Prospect of a special session of the legislature for the passage of a congressional redistricting bill is not relished by Governor Harmon, but there seems no way out of it unless this session is drawn out indefinitely, for there is no telling when congress will pass the reapportionment bill. Indeed, it is intimated that the Republican senate, in aid of the New York Republicans in the deadlock there over the election of a senator, will permit no reapportionment bill to pass at all at the special session. In that case a special session of the Ohio legislature next year will be necessary.

Leaders of both houses are now predicting adjournment of the legislature by the end of April.

Fine decorations in profusion adorned the desk of the late D. P. Hagerty of Hancock county. The house flag was at half-mast and a delegation of members of that body attended the funeral. Services were held at the late residence about three miles from Findlay. Speaker S. J. Vining of Mercer county headed a delegation, which acted as honorary pallbearers, consisting of Representatives Kennedy, Cowan, Bowler, Reynolds, Stanhope, Leathers, Smith of Butler and others. Out of respect to the memory of Mr. Hagerty, the house adjourned a few minutes after concluding.

The purpose of artificially coloring green tea has been to give the leaves an attractive appearance, it being a fact that even in China and Japan tea have largely been sold on their looks rather than their cup quality.

The change means that even at first hand no one attention will be paid to cup quality, that the tea without coloring will be absolutely pure and possesses better drinking qualities. The change naturally creates an unusual demand for the colored tea at present on the market.
